

Application Guidelines

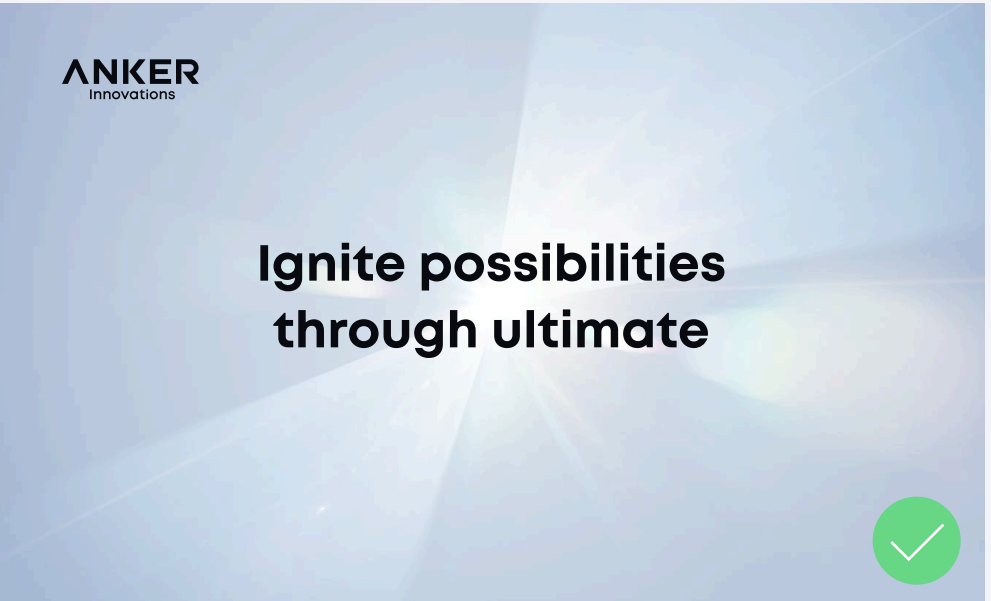

To apply the brand's light forms effectively in visual work, please follow the illustrated guidelines provided.

Please use the company's brand color palette to set the image's color tone.

Please create the image based on the brand's designated light form positioning.

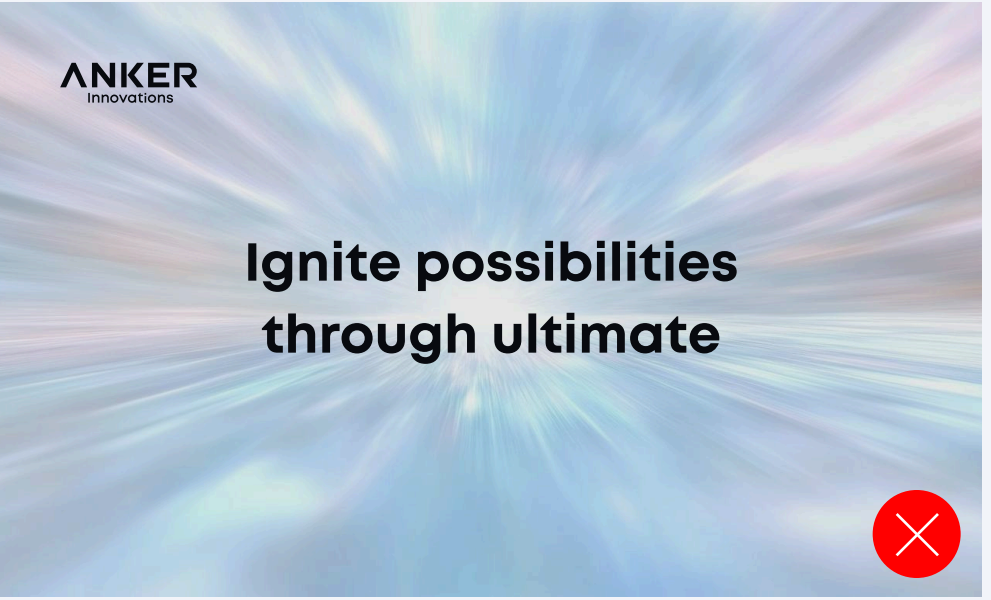

Please create the image using the brand's designated light form.

Do not change the company's brand color palette.

Do not place the light form in areas unrelated to the text.

Do not use any light form that falls outside the brand specifications.
