

# Chinese Typography Application

We apply the same fixed size and weight ratios in Chinese typography to create structure across:

- Headings
- Subheadings
- Body text
- Supplementary notes

The example below shows the proportional relationships used in Chinese typography, including the equivalent point (pt) sizes and pixel (px) values at 2× resolution:

- Heading - 100%
- Subheading - 50%
- Body Text - 40%
- Caption - 30%

**Headings**  
HarmonyOS Sans Bold  
100% ( 40pt / 80px )

**Subheadings**  
HarmonyOS Sans Medium  
50% ( 20pt / 40px )

**Body text**  
HarmonyOS Sans Regular  
40% (16pt / 32px )

Supplementary notes  
HarmonyOS Sans Regular  
30% (12pt / 24px )

极致创新， 激发可能

第一性、求极致、共成长

我们怀揣愿景付诸行动，去创造更美好的生活和更愉悦的生活方式。
