# Company Brand Keynote Template

Keynote is an essential tool for brand communication. Each page should follow a modular design approach based on a consistent grid system.

Example (1920 × 1080 px layout):
· Divide the page into a 12-column grid
· Page margins: 68 px (1080 ÷ 16)
· Column spacing (gutters): 34 px (68 ÷ 2)
· For low-content slides, the layout can be simplified to 6 equally spaced
  columns across the horizontal axis
